PROFESSIONAL SUMMARY

I am a Frontend Developer. I create responsive and user-friendly websites. I have completed E-commerce and Portfolio Projects, I use HTML, CSS, JavaScript, React, and Tailwind CSS. I built a feature where users receive order details by email and admin can see users emails

I write clean Code and follow best UI/UX Practices. I want to join a company where I can learn new things, grow my skills, and work with a good team. I will give my best to the company.

TECHNICAL SKILLS

--> HTML, CSS, JavaScript
--> React.js, React Router, React-Context-API
--> Tailwind CSS, Bootstrap
--> Git, GitHub, Vs Code
--> JSON Server, API Integration

EDUCATION

Bachelor of Computer Applications (BCA)
IIMT University, Noida – 2024

PROJECTS

E-commerce websites: I created a complete e-commerce website using React, Tailwind CSS, and JS. Users can view products, add to cart, and place orders.

I added Product gallery, search products, products filter, price filter, login/signup, checkout system, and email feature for users and admin. I used state management and routing for smooth navigation.

Live URL: <https://e-com-best-deals.vercel.app>

Portfolio Website: I created a modern portfolio website using React and Tailwind CSS.

It has home, about, services, Experience and Content Section with smooth animations.

I used React Scroll, Dark mode toggle and Typing Effect. I added a contact form used Nodemailer to receive emails
